CAKE SERVING GUIDE

ALL ABOUT CAKES

Cinottisbakery.com

With so many cake options, it can become hard to decide which cake is best for your occasion, Here are some ideas to help.

SIZING MATTERS

Having an understanding of your party's needs; from number of guest to overall atmosphere will help in determining your size cake. Warmer seasons or rich foods can reduce the overall servings needed. Conversely, colder temperatures, lighter foods, and earlier events can increase your desired servings.

FLAVORS & FILLINGS

While we offer several flavor and filling options, our homemade vanilla cake is by far our most requested tiered cake. Please keep in mind; we try to accommodate most taste buds, however, some designs and sizes are not always compatible with varying flavors and fillings.

DESIGN & SERVING TIPS

The difference between teal and aqua is a big deal when it comes to your cake. To assist you, we've crated a color guide.

Sometimes, knowing how to serve each tier helps in determining which cake size is best. To help relieve you of the guess work, we've included a serving guide.
